

CNIT 126 Proj 3: Using INetSim on Kali Linux (20 pts.)

 samsclass.info/126/proj/p3-inetsim.htm

DO NOT PUT VIRTUAL MACHINES ON THE C: DRIVES IN S214!

They fill the drive and make the machines stop working. Virtual machines left on the desktop, Documents folder, or other C: drive locations may be deleted at any time, as needed to keep the machines working.
